(16) Annual Fee Adjustments

The fees in this Rule shall be adjusted, for a period, beginning on January 1<sup>st</sup> and ending on December 31<sup>st</sup> of each year, for inflation either on an annual or bi-annual basis. The inflation adjustment factor shall be based on the U.S. Government's Consumer Price Index (CPI) data. During periods of lower inflation the board may elect to make these adjustments on a less frequent basis.

For any year where inflation is projected, when the fees are next adjusted, the actual inflation rate for that year shall be used to correct the projected rate if the difference exceeded 1%. The fee, or fee adjustment factor, shall be lowered or raised to incorporate the actual inflation rate if it differed from the projected inflation rate by over 1%.
